

# H Cypress GTX

3D Flex Ankle for excellent lateral flexibility and longitudinal lockout.

Increased padding under the laces for a more comfortable fit.

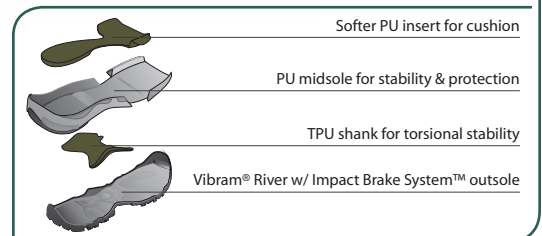

Low profile Trango lacing gilles allow for a highly adaptable fit

Heavy duty rubber rand for durable protection.

2mm LaSpEVA lasting board for out of the box cushion.

FCS PU Aircushion midsole provides durable cushioning for heavy loads.

Vibram® River w/ Impact Brake System™ outsole increases traction and reduces impact.

A women's specific, tough waterproof hiking boot built for long days with a heavy pack or anywhere cushioned stability is needed
